1 Preface

1.1 Introduction

This document is a User Requirement Specification (URS) that contains details about Unsafe Condition Unsafe Action (UCUA). The purpose of this paper is to be a guidance or reference for the design, development, and implementation of a system in this project.

UCUA is a form complaint system that is used in Port Security & Safety Department (PSSD) to process, distribute, and complete report forms for unsafe conditions and unsafe actions. The current process of form that is used is the traditional paper-based process, but web-based forms are becoming efficient for capturing information, keeping track, and gathering data analysis.

1.2 Problem Statement

Through observation on the current process for users to submit a complaint report to PSSD department, several problems have been identified including:

i. Request must be done manually by submitting physical form
ii. Might take few times to submit, respond and process the form
iii. Involve costs for paper usage, printer toner, filing accessories and physical storage
iv. Hard to find or track previous records
v. Possible loss of document

1.3 Intended User

This document is intended to be read by:

i. Internal user
    - Port Security & Safety Department (PSSD)

1.4 Acronyms and Abbreviations

Throughout this document, the acronyms or abbreviations used are as follow:

Acronym	Description
PPE	Personal Protective Equipment
JPB	Johor Port Berhad
Operation Areas	Wharves, terminals, JPB operated warehouses, jetties including DCJ's areas and any maintenance, service or construction activities inside Johor Port excluding leases and tenant's compound.
Port Community	All Port Users but not limited to: Staff, Tenants, & Leases, Customers, Contractors, Visitors, Suppliers, Government Agencies, Regulatory Bodies, and other stakeholders.
PSSD	Port Security & Safety Department
BBT	Bulk and Break Bulk
JCT	Johor Container Terminal
JPL	JP Logistics
DCJ	Dangerous Cargo Jetty
OJ	Oil Jetty
HIRADC	Hazard Identification, Risk Assessment and Determine Control
UCUA	Unsafe Condition Unsafe Action
HOS	Head of Section
GM	General Manager
HSE	Health Safety Environment

1.4.1 General Descriptions

1.4.1.1 Objectives

The objectives of this project are as follow:

i. To provide all port communities with an online system that is able to gather, retrieve, and trace/detect information on:

- The complainer/offender
- The feedback
- Number of offences

ii. To alert OSH team and other related department on any complaint.

iii. Manual to paperless

1.4.1.2 Scope

The proposed software product is the Unsafe Condition Unsafe Action (UCUA), The system will be used in Johor Port Berhad (JPB) particularly for Port Security & Safety Department.

Scopes of work for user are as follow (software & hardware):

- Accessible to apply, check, verify, process, monitor, record, administrate and manage feedback.
- User can keep track and view previous history of complaint.
- User can upload the picture that needed for evidence and as references.
- Generate report and analysis based on the complaint. The list of suggested report and analysis are as follows:
    a. The complainer/offender
    b. The feedback
    c. Number of offences
- GUI-based or web-based system.

1.4.1.3 UCUA Users

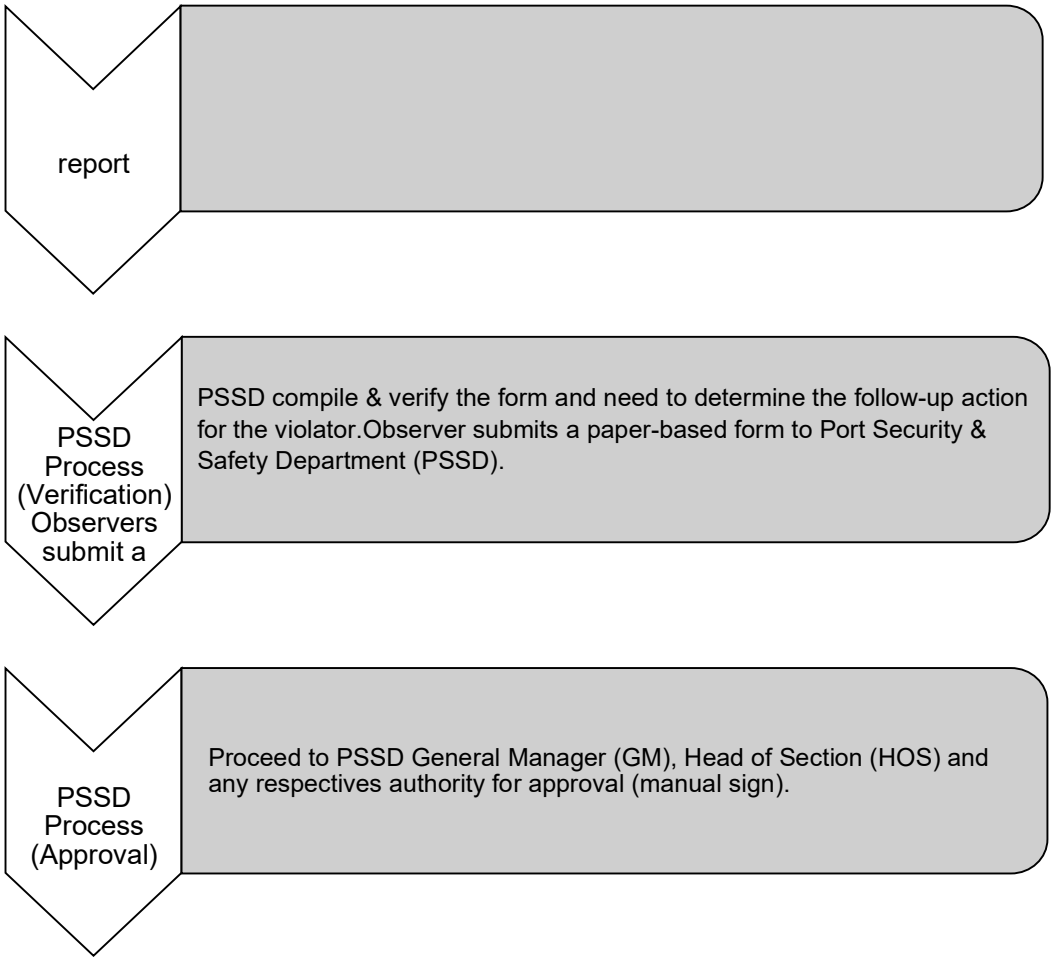

The users are listed as follow:

i. External User:
   a. Observer:
      - Public User: Vendors
      - JPB Staff
   b. Others related department

ii. Internal User:
   a. Admin:
      - Port Security & Safety Department (HSE PSSD)
      - General Manager (GM)
      - Head of Section (HOS PSSD)

1.4.2 Specific Requirement

1.4.2.1 Overview of Overall Process Manually (High level)

2 UCUA Flowchart

2.1 UCUA Main Flowchart

The major activity that has been executed in form of flowchart by PSSD are being defined in figure below and in **Appendix A.**

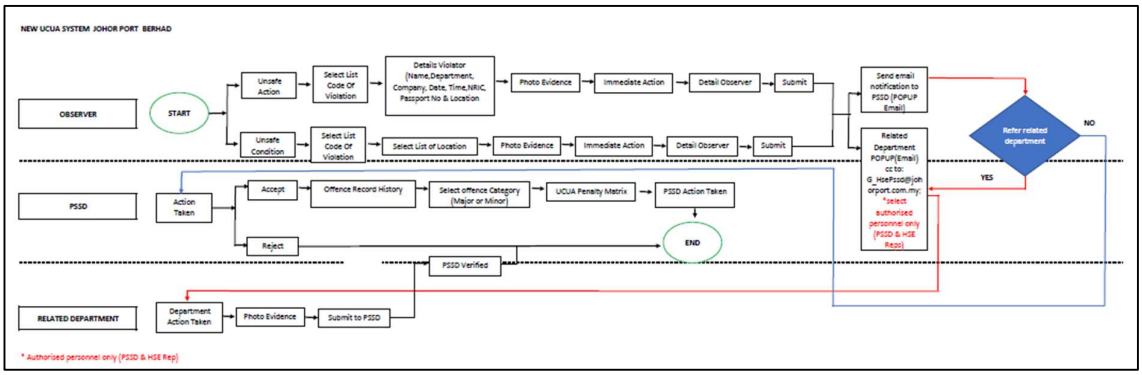

Figure 2.1 UCUA Main Flowhart

2.2 Unsafe Action Flowchart

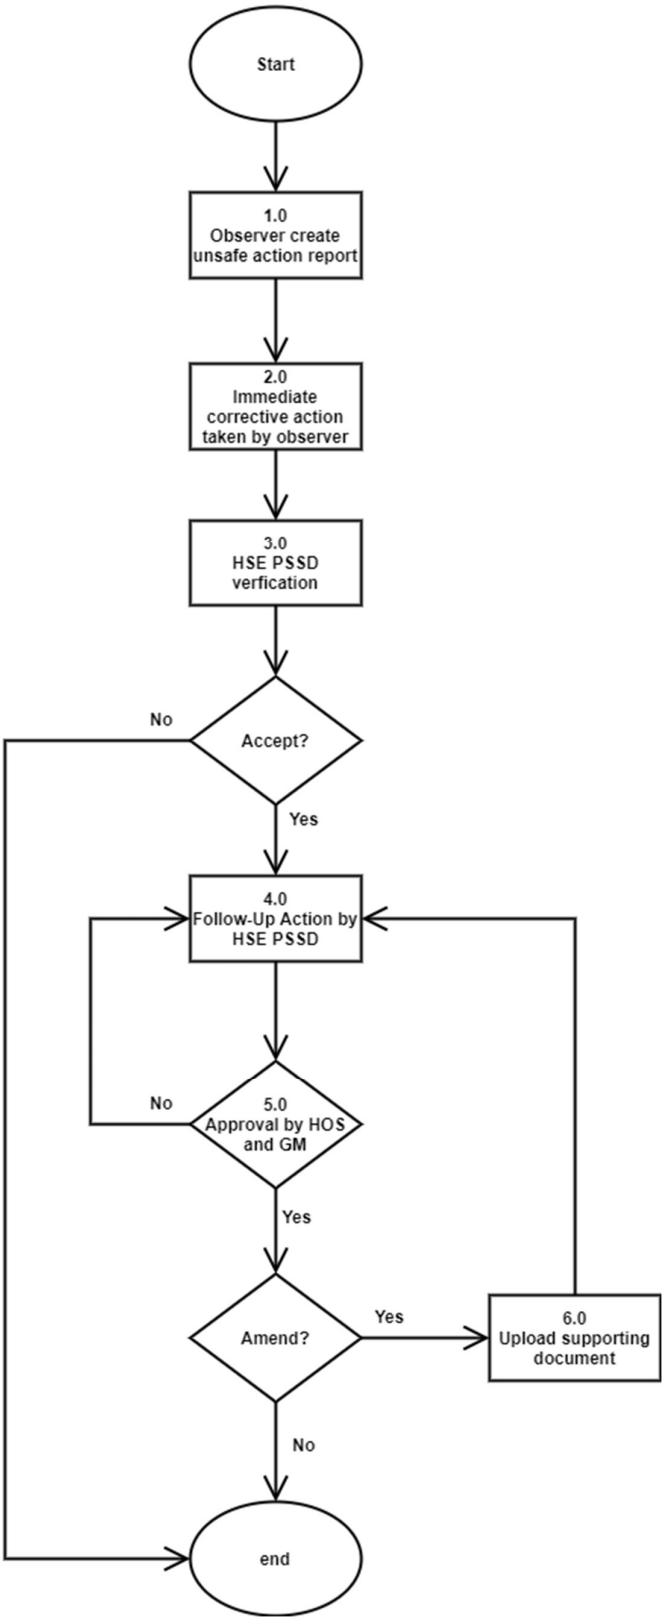

Figure 2.2: Unsafe Action Main Flowchart

Table 2.1 below shows the description of the Unsafe Action main flowchart.

Table 2.1: Description of Unsafe Action Main Flowchart

No	Item	Description
1.0	Observers create unsafe action report	Observers create and fills in all details for the Unsafe Action Form that is required via UCUA an online form management. The details as follows: a) Location of the offences b) Offence code c) Photo Evidence d) Observer details: • Name • Department • Date and time e) Violator details: • Name • Staff/IC/Passport Number • Company • Date and time If the observer is an HSE REPS, the HSE Details that need to be fill in as follows: f) HSE REPS/PIC details: • Name • Department • Date and time
2.0	Immediate corrective action taken by observer	Observers needs to select the immediate corrective action taken to the violator. The immediate corrective action taken are based on user role: a) Public user and JPB Staff: • Stop Work • Verbal Warning (Supervisor and above) • Notify Related Parties • Others b) HSE PSSD: • Stop Work • Verbal Warning • Revoke Entry Permit • Notify Related Parties • Others
3.0	HSE PSSD verification	HSE PSSD responds whether the application is approved or rejected.
4.0	Follow-up action by HSE PSSD	HSE PSSD need to refer UCUA penalty matrix as shown in **Figure 2.4.** Penalty will be determined based on the penalty matrix and violator history.
5.0	Approval by HOS and GM PSSD	The report needs to be reviewed by the Head of Section and approved by GM PSSD.
7.0	Upload supporting document	If there is amend from the violators, they need to upload the supporting document in the system and then HSE

	report	PSSD need to follow-up the action. The new follow-up action needs to be approved again by HOS and GM PSSD

2.3 Unsafe Condition Flowchart

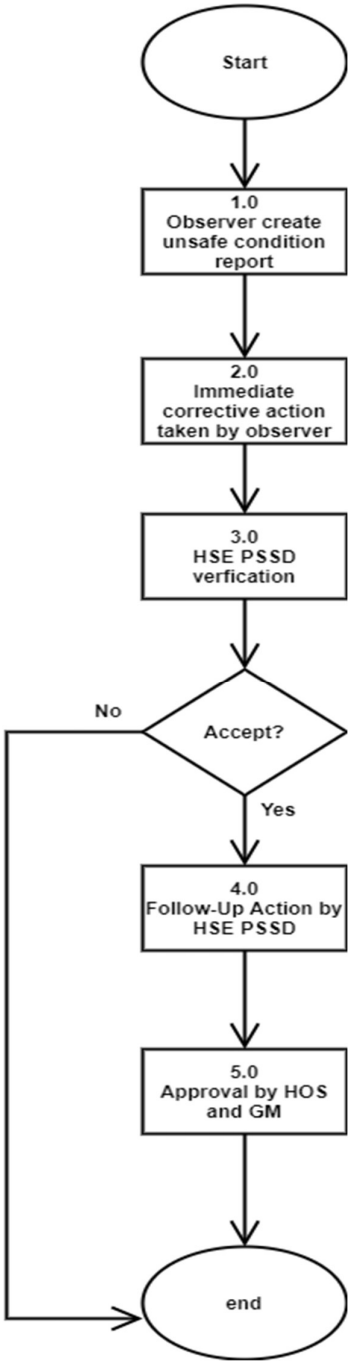

Figure 2.3 Unsafe Action Main Flowchart

Table 2.2 below shows the description of the Unsafe Condition main flowchart.

Table 2.2: Description of Unsafe Condition Main Flowchart

No	Item	Description
1.0	Observers create unsafe condition report	Observers create and fills in all details for the Unsafe Condition Form that is required via UCUA an online form management. The details as follows: a) Location b) Offence code c) Photo Evidence d) Observer details: • Name • Department • Date and time If the observer is an HSE REPS, the HSE Details that need to be fill in as follows: e) HSE REPS/PIC details: • Name • Department • Date and time
2.0	Immediate corrective action taken by observer	Observers needs to select the immediate corrective action taken to the violator. The immediate corrective action taken are based on user role: a) Public user and JPB Staff: • Stop Work • Notify Related Parties b) HSE PSSD: • Stop Work • Notify Related Parties
3.0	HSE PSSD verification	HSE PSSD responds whether the application is approved or rejected.
4.0	Follow-up action by HSE PSSD	HSE PSSD need to refer UCUA penalty matrix as shown in **Figure 2.4.** Penalty will be determined based on the penalty matrix and violator history.
5.0	Approval by HOS and GM PSSD	The report needs to be reviewed by the Head of Section and approved by GM PSSD.

2.1.2 UCUA Penalty Matrix System

The following matrix will be used to determine the offence consequence to the involved user. The penalty matrix of offences is shown in the figure below. Overall, there are 29 categories of offences with 17 major offences and 12 minor offences.

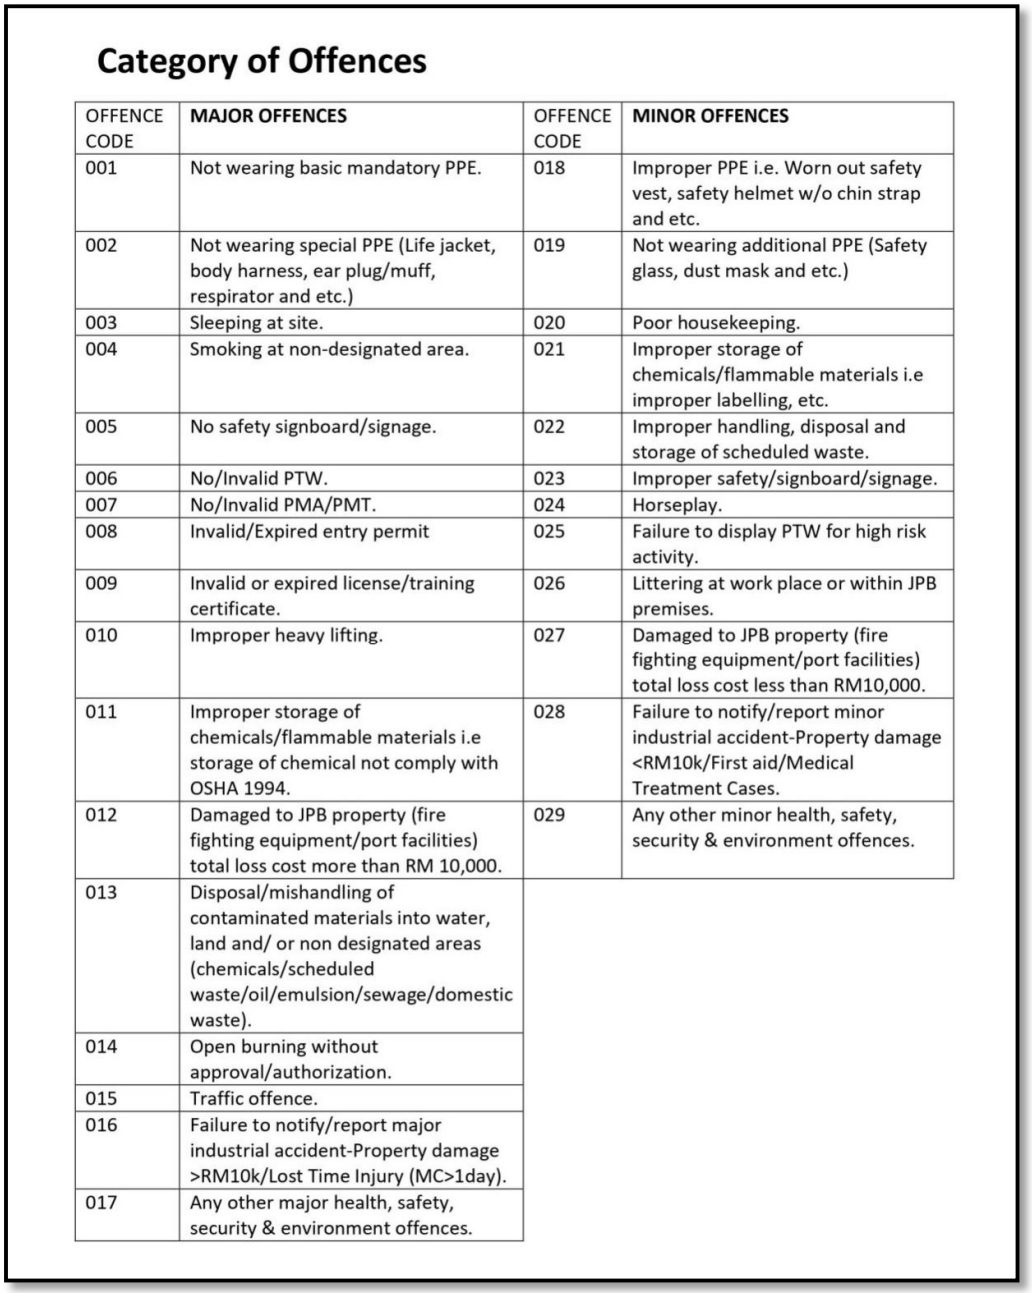

JPB Penalty Matrix

No	Offence	Offence Code	Offence/Severity Category	Category	Category	1st Offence Consequences				2nd Offence Consequences				3rd Offence Consequences			
						1st Offence Consequences				2nd Offence Consequences				3rd Offence Consequences			
						JPB staff	JPB Contractor	External (Hauler, Delivery, Firecrew tenant etc)	Company	JPB staff	JPB Contractor	External (Hauler, Delivery, Firecrew tenant etc)	Company	JPB staff	JPB Contractor	External (Hauler, Delivery, Firecrew tenant etc)	Company
1	Not wearing basic mandatory PPE (safety helmet, safety shoes, safety vest c/w reflector)	(B)	People		Breach of JPB HSSE Rules	Final Warning (HRAD) and Re-sit Induction	Re-sit Induction & Blacklisted 1 Month	Blacklisted 1 week / Fine	Fine RM500	Dismissal by HR	Permanent blacklisted	Permanent blacklisted	Fine RM1000	Dismissal by HR	N/A	N/A	Blacklisted
2	Not wearing special mandatory PPE (Life jacket, body harness, ear plug / muff, respirator and etc.)	(C)	People		Breach of JPB HSSE Rules	Final Warning (HRAD) and Re-sit Induction	Re-sit Induction & Blacklisted 1 Month	Blacklisted 1 week / Fine	Fine RM500	Dismissal by HR	Permanent blacklisted	Permanent blacklisted	Fine RM1000	Dismissal by HR	N/A	N/A	Blacklisted
3	Sleeping at site	(D)	People		Breach of JPB HSSE Rules	Final Warning (HRAD) and Re-sit Induction	Re-sit Induction & Blacklisted 1 Month	Blacklisted 1 week / Fine	Fine RM500	Dismissal by HR	Permanent blacklisted	Permanent blacklisted	Fine RM1000	Dismissal by HR	N/A	N/A	Blacklisted
4	Smoking at non-designated area	(E)	People		Breach of JPB HSSE Rules	Final Warning (HRAD) and Re-sit Induction	Re-sit Induction & Blacklisted 1 Month	Blacklisted 1 week / Fine	Fine RM500	Dismissal by HR	Permanent blacklisted	Permanent blacklisted	Fine RM1000	Dismissal by HR	N/A	N/A	Blacklisted
5	No safety signboard / signage	(F)	People		Breach of JPB HSSE Rules	Final Warning (HRAD) and Re-sit Induction	Re-sit Induction & Blacklisted 1 Month	Blacklisted 1 week / Fine	Fine RM500	Dismissal by HR	Permanent blacklisted	Permanent blacklisted	Fine RM1000	Dismissal by HR	N/A	N/A	Blacklisted
6	No / invalid PTW	(H)	People		Breach of JPB HSSE Rules	Final Warning (HRAD) and Re-sit Induction	Re-sit Induction & Blacklisted 1 Month	Blacklisted 1 week / Fine	Fine RM500	Dismissal by HR	Permanent blacklisted	Permanent blacklisted	Fine RM1000	Dismissal by HR	N/A	N/A	Blacklisted
7	No / invalid PMA/PMT or machinery certificate of fitness	(M)	People		Breach of JPB HSSE Rules	Final Warning (HRAD) and Re-sit Induction	Re-sit Induction & Blacklisted 1 Month	Blacklisted 1 week / Fine	Fine RM500	Dismissal by HR	Permanent blacklisted	Permanent blacklisted	Fine RM1000	Dismissal by HR	N/A	N/A	Blacklisted
8	Invalid / expired entry permit	(N)	People		Breach of JPB HSSE Rules	Final Warning (HRAD) and Re-sit Induction	Re-sit Induction & Blacklisted 1 Month	Blacklisted 1 week / Fine	Fine RM500	Dismissal by HR	Permanent blacklisted	Permanent blacklisted	Fine RM1000	Dismissal by HR	N/A	N/A	Blacklisted
9	Invalid or expired license / training certificate	(O)	People		Breach of JPB HSSE Rules	Final Warning (HRAD) and Re-sit Induction	Re-sit Induction & Blacklisted 1 Month	Blacklisted 1 week / Fine	Fine RM500	Dismissal by HR	Permanent blacklisted	Permanent blacklisted	Fine RM1000	Dismissal by HR	N/A	N/A	Blacklisted
10	Improper heavy lifting	(Q)	People		Breach of JPB HSSE Rules	Final Warning (HRAD) and Re-sit Induction	Re-sit Induction & Blacklisted 1 Month	Blacklisted 1 week / Fine	Fine RM500	Dismissal by HR	Permanent blacklisted	Permanent blacklisted	Fine RM1000	Dismissal by HR	N/A	N/A	Blacklisted
11	Improper storage of chemicals / flammable materials i.e storage of chemical not comply with OSHA 1994.	(R)	People		Breach of JPB HSSE Rules	Final Warning (HRAD) and Re-sit Induction	Re-sit Induction & Blacklisted 1 Month	Blacklisted 1 week / Fine	Fine RM500	Dismissal by HR	Permanent blacklisted	Permanent blacklisted	Fine RM1000	Dismissal by HR	N/A	N/A	Blacklisted

Figure 2.4: UCUA Penalty Matrix System

The category of offences is divided based on major or minor offences. Every offence has its offences code. The category of offence is shown in the figure below.

Category of Offences

OFFENCE CODE	MAJOR OFFENCES	OFFENCE CODE	MINOR OFFENCES
001	Not wearing basic mandatory PPE.	018	Improper PPE i.e. Worn out safety vest, safety helmet w/o chin strap and etc.
002	Not wearing special PPE (Life jacket, body harness, ear plug/muff, respirator and etc.)	019	Not wearing additional PPE (Safety glass, dust mask and etc.)
003	Sleeping at site.	020	Poor housekeeping.
004	Smoking at non-designated area.	021	Improper storage of chemicals/flammable materials i.e improper labelling, etc.
005	No safety signboard/signage.	022	Improper handling, disposal and storage of scheduled waste.
006	No/Invalid PTW.	023	Improper safety/signboard/signage.
007	No/Invalid PMA/PMT.	024	Horseplay.
008	Invalid/Expired entry permit	025	Failure to display PTW for high risk activity.
009	Invalid or expired license/training certificate.	026	Littering at work place or within JPB premises.
010	Improper heavy lifting.	027	Damaged to JPB property (fire fighting equipment/port facilities) total loss cost less than RM10,000.
011	Improper storage of chemicals/flammable materials i.e storage of chemical not comply with OSHA 1994.	028	Failure to notify/report minor industrial accident-Property damage <RM10k/First aid/Medical Treatment Cases.
012	Damaged to JPB property (fire fighting equipment/port facilities) total loss cost more than RM 10,000.	029	Any other minor health, safety, security & environment offences.
013	Disposal/mishandling of contaminated materials into water, land and/ or non designated areas (chemicals/scheduled waste/oil/emulsion/sewage/domestic waste).		
014	Open burning without approval/authorization.		
015	Traffic offence.		
016	Failure to notify/report major industrial accident-Property damage >RM10k/Lost Time Injury (MC>1day).		
017	Any other major health, safety, security & environment offences.		

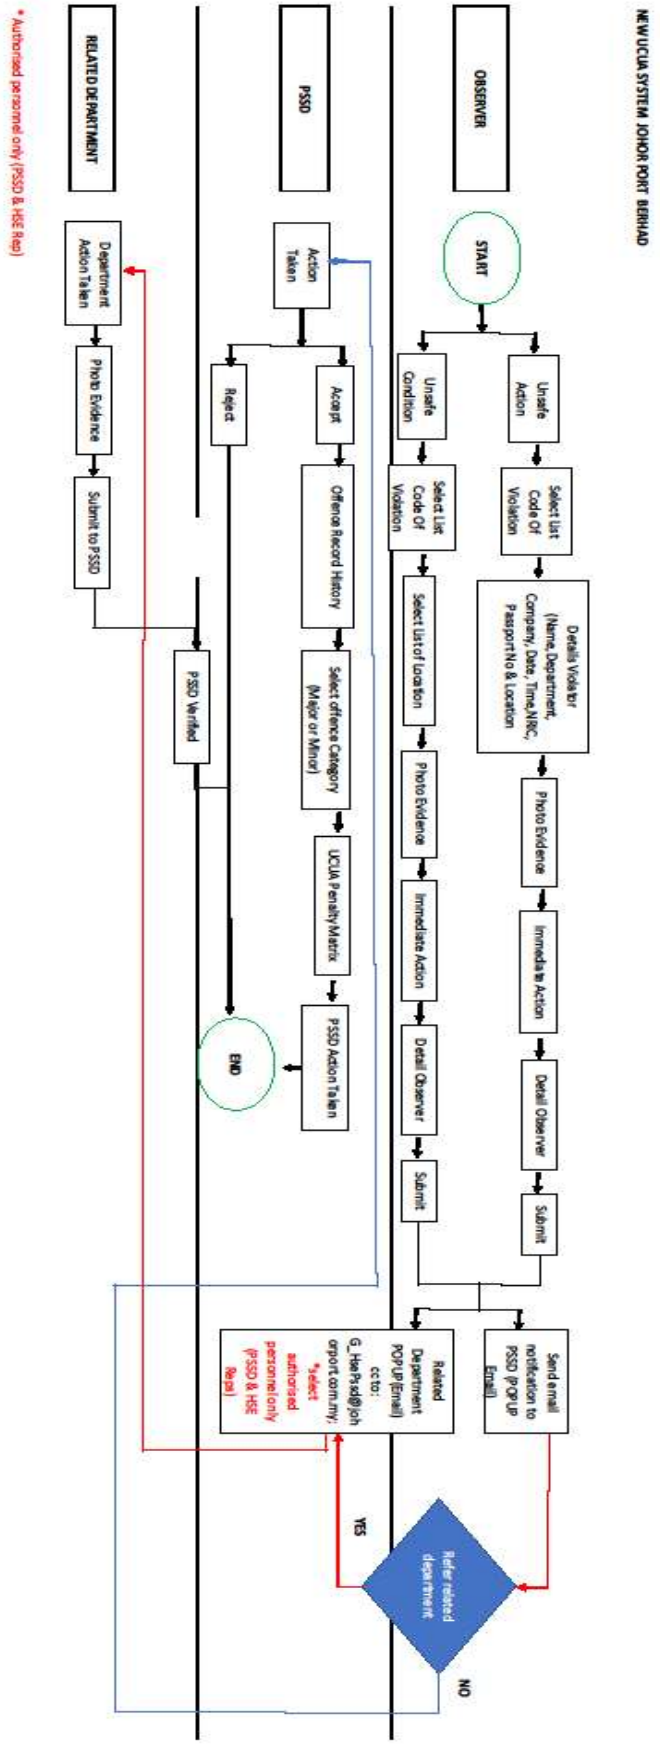

Figure 2.4: Category of offences

3 Expectation Duration for System Development

This timeline of project UCUA can be the guidance in development system. It lists some tasks or activity that to be performed in this project. This timeline also illustrate expectation start and finish duration of summary elements project.

No	Task / Activity	Sept 2021	Oct 2021	Nov 2021	Dec 2021	Jan 2022
1	Gathering, analysis & documentation URS					
2	Gathering, analysis & documentation FTRS					
3	Designing graphical prototype					
4	Design actual prototype & internal testing					
5	Overall system development					
6	System internal testing, user acceptance testing					
7	Deployment & stabilization					
8	Pilot test and final acceptance test					
9	Roll out
